

**NICO** Live / Dj – SLASH, Souvenir Music

**NICO** is a young and fresh female artist. Her parents told her, that her first spoken words were: Prokofiev and Rachmaninoff. Influenced by the work of her father as a music composer and conductor, she gets early in touch with classical music like Richard Wagner, Gustav Holst, Philip Glass and many russian composers. With the age of fourteen she started listening to electronic music; from this time Nico's musical interest moved from deep techno, over minimal music to modern club sounds.

The spirit of the Doors and especially the life of Jim Morrison affected her personality in a strong way too. Nico is an ambivalent creature; on the one hand she lives on the dark side of the moon and gambles with deep, dark and mysterious emotions...but on the other hand she adores the purity of soul and nature.

So it is needless to say that Nico points out an expression of herself through her productions and now its time to show her diversity on Slash!

**Discography:**

NICO – Session Club EP [SLASH03]
