**Tim Querengaesser aka Pherox Liveact/ Dj - Slash, Dumb Unit, Stock5**

There's something deeply beautiful in the sound of tim querengaesser, and something poignantly mystic too. Emerging strings through minimalism, interferences rising amongbeats, in a picture of the most futuristic sound that you can hear in a club today.

You get lost in a never ending journey, like your favorite movie is playing in an endless loop. A soft and gently touch which surrounds you with warmenergy! Influenced by his work at Essens Recordstore n°1, "Important Records", he evolved a certain feeling for minimal techno and of course for retailing records worldwide.

Deeply minted by the early "Sound of Cologne", the inducement to produce music himself was rising constantly. Experimenting with sounds and lyrics since 1997 lead to the first productions in 2001. He released Tracks on Dumb Unit, Mupa, Catenaccio and Nummer. Upcoming Releases will appear on Stock5, Brouqade and his label Slash!
